Motivation Letter

Dear Sir/ Madam,

I write this letter to apply for the master's programme at the University of [Insert University Name]. I am specifically interested in obtaining the Master of Science in Business (Accounting and Finance) degree. I have had a strong affinity for mathematics-oriented subjects since the basic stages of education. In the course of my studies and research, I learnt that experts in the finance industry deploy mathematical and quantitative knowledge in order to develop policies that affect the lives of ordinary people. Therefore, I believe that relevant certification is a pivotal step towards my career of choice. The knowledge your educational establishment can provide me with will enable me to positively influence the economic environment in my country and in the world. I have chosen this university due to its heritage and history, which is rich in prominent alumni who shaped the finance industry globally. Moreover, the institution is highly accredited and globally recognized, which will help me apply for a job at such organizations as the World Bank.

I consider myself well suited for this course's requirements. I will be graduating with a bachelor's degree in business administration (Finance and Accounting) in June 2017 from the International University of Geneva. My previous education laid a strong scholarly foundation that allows me to attain the master's degree. In addition, I have garnered invaluable experience in the industry during my two terms of internship at Mugan Bank and the Azerbaijan State University of Economics. I am also well-versed in information technology, which plays a significant role in the today's market.

In addition, I am convinced that my experience in different cultures and knowledge of languages (English, Turkish, Russian, and Azerbaijani) will help me uphold and enrich the culture of diversity at the university.

I believe I have explained my strong desire to study at the University of [insert name] and demonstrated the importance of enrolling therein to my pursuit of a fruitful career. Moreover, I believe that with my current experience and qualifications, I meet the requirements for admission. I am also confident that my experience will make me a valuable addition to the University's master's programme.

Thank you for your consideration.

Kind regards
