# Scholarship Essay

The primary reason for the submission of the Degree Completion Application was the decision to return to education because prior to 2017, I did not have an opportunity to take many hours per semester since I was employed full-time and had kids to take care of. Thus, I could not able to balance employment, education, and family. However, now, after some time has passed, I have made a decision to get back to studying with new strength and motivation to earn my degree. I took 16 hours in the fall of 2016 and 17 hours in the spring semester and earned a 4.0 GPA in both semesters since the previous fall.

Receiving one of these scholarships will provide with me with the financial assistance that I need now, and I will be able to take the course and will be motivated to work even harder. Besides, my intentions are demonstrated by my current academic achievements in the last two semesters, and I am not planning to decrease my efforts. Also, now, I have a good support system and do not work full-time anymore and can take more efforts at school.

Currently, I cannot finance education myself. These scholarships are the only opportunity for me to get the financial assistance that I need to pay for education and obtain the desired degree. Also, they would allow me getting an employment to provide a brighter future for my children and myself.

My post-graduation plans include working as a school teacher. I have always felt that sharing knowledge with the young generation is my passion and something I am good at. Besides, I think that it would be the best way to show gratitude for what I have been given by the people who endowed

me with the knowledge and skills. However, I am not going to stop my advancement at obtaining the bachelor degree, and I plan to pursue a master's degree in the future.

This scholarship means a lot to me because it is my last hope to get the required financial aid to pay for school and obtain a diploma. I will be significantly obliged for your consideration of my application and an granting of the scholarship.

Thank you in advance.

Best regards,
